Some people (about 1 in 4000) may have seizures or black outs triggered by light flashes, such as while watching TV or playing video games, even if they have never had a seizure before.

Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.

Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

- 4. Play in a well-lit room.

Playing video games can make your muscles, joints or skin hurt after a few hours. Follow these instructions to avoid problems such as Tendonitis, Carpal Tunnel Syndrome or skin irritation:

- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists or arms become tired or sore while playing, stop and rest them for several hours before playing again.

- Do not mix alkaline and carbon zinc batteries.
- Do not mix different brands of batteries.
- · Do not use nickel cadmium batteries.

- Do not leave batteries in the Game Boy or accessory for long periods of non-use.
- Do not leave the power switch on after the batteries have lost their charge. When you finish using the Game Boy, always slide the power switch OFF.

How to Play the Game - When the game is started, the Galaga alien formation appears and assembles in the upper part of the screen. Soon after that, they start attacking. Your star fighter is operated by moving to the left or right. When Galaga troops come flying down to attack, you can defeat them with your missiles. Rules

- You lose one star fighter when you are hit with an enemy's missile or when you touch the enemy.
- The game is over when all lives are lost.
- If your Lives setting is set to 2, 3, or 4, one star fighter is awarded when you score 20,000 points, 70,000 points, and for every 70,000 points after that. If you set your lives to 5, the first bonus fighter is awarded at 30,000 points and every 120,000 points after that.
- It is possible to change Lives and Bonuses separately.

Let's fight with a Dual Fighter!

• When two fighters are combined into one unit, your fighter has double the firepower. This fighter is called a dual fighter. Let's start a major attack!

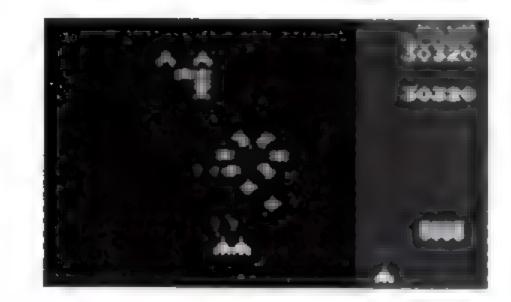

First, let Boss Galaga capture your fighter with his tractor beam.

A fighter has been captured and Boss Galaga is flying at you. Take your aim and fire!

A fighter rescue mission was successfully completed. A single fighter has changed into a dual fighter!

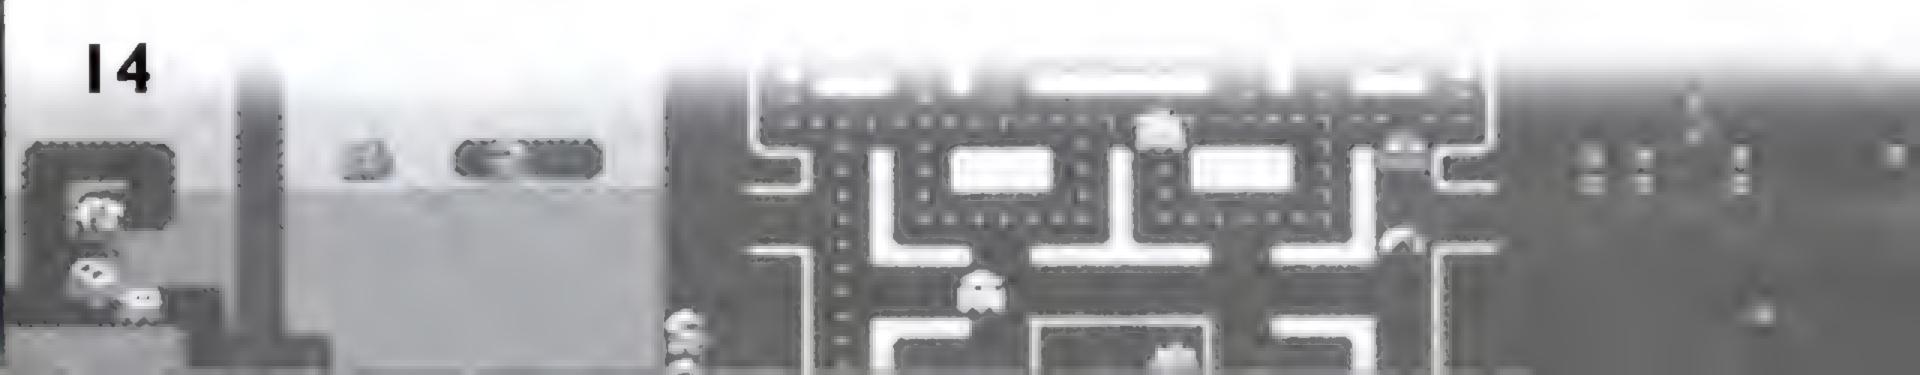

Tips

- If you shoot a captured fighter, the fighter will be destroyed. Be very careful and aim only at Boss Galaga!
- Be careful if there are no more fighters left and you are surrounded by a tractor beam; the game ends if your last fighter is captured.
- Attack Boss Galaga while he is flying! When a Boss Galaga with a captured fighter is attacked in formation, the captured fighter becomes your enemy!

Your Chance to Win Big Points in the Challenging Stage!

The first challenging stage occurs on the third stage and on every fourth stage after that. Various types of Galagas will be flying in dancing formations. How to Play the Game – You can control your car's steering, acceleration, braking, and the shifting of gears. First, you must qualify for the main race by completing one lap with a fast lap time. If successful, you receive your starting position for the main race. If you take too long on the qualifying lap, you won't qualify for the main race and the game is over.

When starting the main race, you begin from the position that you qualified. The race starts when the light turns green and you must successfully complete four laps to finish the race. As the race progresses, you should avoid crashing into other cars or obstacles on the sides of the racetrack. Also, avoid driving over water puddles, since these slow you down. You will receive additional race time for each lap that you complete by crossing the Start/Finish line. In the main race, if the time reaches zero before you cross the Start/Finish line, the game is over.

Tips

- Shift into low gear, tap the brake, or let off on the accelerator to slow down for sharp turns.
- When approaching traffic, try to drive between opposing cars by positioning your car in the center of the track. Beware of cars that change lanes!
